## **What is the Partnership Program?**

The Minnesota Long Term Care Partnership is a public/private arrangement between long term care insurers like CNA and Minnesota's Medicaid/Medical Assistance program. It enables people who purchase certain long term care coverage to have more of their assets protected if they later need to have the state pay for their long term care. For example, if you receive \$100,000 in benefits under your private long term care coverage, you may be allowed to protect an additional \$100,000 in personal assets at the time you apply for Medicaid/Medical Assistance.
